1. Current site is a very hard site, to add more green space to soften the boundary of the site (beside MRT exit & main road)

Design

1. Formation of the massing is still unclear
 - **Will refine the diagram**
2. To make ground floor more like a park
 - **Ground floor and LG floor will add more green, acting as public park for community & public**
3. Consideration of the percentage of circulation compare to usable spaces
4. SOA detailing
 - **To detail up the spaces with corresponding SOA**
5. Relationship between space and activity
 - **Relook into some part of the sizes of space vs the activity**
6. Provide too many lift considering the main idea of the project is to encourage walking
 - **Lift numbers will be reduce and walking path circulation will be reconsidered**
